REPORT Of The SELECTMEN

The year 1966 was another busy one for the Town of Jaffrey as various projects were completed.

SEWER CONSTRUCTION. The Ejector Stations on River Street and Old Peterborough Road were completed and were put into operation.

Sewer lines were constructed on Old Peterborough Road, Cross Street, Burrington Street and Gilmore Pond Road. At the present time the compact area of the town area is well covered with sewer lines, and there remains two areas in pressing need of sewering. The Jaffrey Center Sewer which now empties into septic tanks located off Sawtelle Road is one project which should be dealt with in the near future as the sewerage problem is now becoming more apparent. Also, there is need for a sewerage extension for Cheshire Village to take care of the sewerage problem now existing in that area. Provision is being made in the Town Meeting Warrant for these two extensions.

NORTH STREET - ROUTE #137 STATE AID RECONSTRUCTION. The project was started during the past summer under the supervision of Mr. Wilson, the Highway Agent, and was carried almost to the intersection of Old Peterborough Road and North Street. It is hoped this will be completed during 1967.

COMMONS. The project for improvement to the commons was again delayed as there was not sufficient money raised to do this job as it should be done. However, it is hoped that with the appropriation being asked for in 1967 this project will be completed during the current year.

SIDEWALKS. Repaving of sidewalks was done during the past year on North School Street to the end of the street where it intersects with North Street. Ellison Street was also repaved as this street was in deplorable condition and needed much work. The Upper Main Street project was delayed until this coming year until the State could furnish the town with the necessary specifications. It is anticipated that this sidewalk construction will be completed during the year.

The Board of Selectmen attended several meetings throughout the year which were held in the State and which dealt with some of the pressing problems of municipalities such as sewerage, water pollution and tax appraisal. It is felt that the Board has gained valuable knowledge from attendance at these meetings.

The Board of Selectmen for the Town of Jaffrey meets every Tuesday evening in the Jaffrey Town Office to meet with any citizen who wishes to discuss any problem that he might have.

Several afternoon sessions were also held by the Selectmen to take care of some of the problems that could not be discussed during the evening sessions.

We wish to extend our appreciation to the citizens of Jaffrey for the cooperation given us in the fulfillment of our duties as your duly elected Board of Selectmen and hope that we have performed our task in a way that meets with your approval.

REPORT OF THE JAFFREY PLANNING BOARD

The following is a brief resume of the Planning Board activities for 1966-67.

PARKING AREA FACILITIES: The need and location of a municipal parking area was a major topic during the past year. After much discussion and investigation it was determined that the need for a municipal parking area was not as urgent as suspected and did not warrant the expense of major construction at this time. This decision was based on other factors which will help solve the immediate parking needs. This problem will be of prime importance in future Town planning.

STREET LIGHTS: The subject of street lights, new and changes to existing lights, is covered by an article in the Town Warrant. The Planning Board is in the process of drawing up minimum specifications for the Selectmen to use as a guide in determining the need and type of future lights.

SIDEWALKS: Repairs to existing sidewalks and the need for future sidewalks was discussed and a public hearing held on February 8, 1967, so that all persons interested could express their opinions. Recommendations for sidewalk improvement and new sidewalks will be made to the Selectmen and Road Agent.

ROAD SPECIFICATIONS: A set of minimum road specifications have been drawn up and presented to the Selectmen as a guide for use in determining the acceptability of a road by the Town. These specifications apply to all future roads which may be presented to the Town for acceptance.

SET-BACK LAW: Official interpretation of the existing building permit regarding the set-back law was presented to the Selectmen. Interpretation is that the 30' restriction will be from the right of way and not the edge of the highway pavement.

Areas the Planning Board will be pursuing this coming year are: subdivision, existing post office problems, relocation of Route 202, and zoning.

The year 1967 looks to be a busy year for the Planning Board and it is wished that all Jaffrey citizens feel free to express their opinions and thoughts through any Board members or the public hearings held throughout the year.

REPORT OF STREET AND ROAD NAME COMMITTEE

TO: The Honorable Board of Selectmen and Voters of Jaffrey:

In compliance with the vote under Article 22 at the Annual Town Meeting, March 8, 1966, a committee to study and bring in recommendations for the correct historical names of roads and streets, was duly appointed.

The committee has held several work meetings. Postmaster Homer J. Forcier has sat with the committee on two occasions to represent the interests of the Post Office Department in an effort to eliminate existing confusion and to facilitate the deliveries of mail. Former Selectman Ralph E. Boynton has also sat at the meetings in an advisory capacity, his memory going farther back than those of the members of the committee.

In October the Selectmen were invited to sit at a meeting to view the progress made by the committee.

With not enough roads in Town to name for every family living along them, your committee at the outset deemed it wisest to adhere strictly to the old historical names, in most cases honoring the pioneers who blazed the original trails along which the town roads were subsequently laid out. The committee felt it an injustice to the other 3000 or more persons living in town today to have a certain few families honored by naming roads for them for no reason except that the roads happened to go by their houses. There are other houses and families along them too. This practice would create bitter feelings and animosities and life is too short for that. Fairness to all has been the objective of the committee.

Therefore your committee dug deeply into the past for the original names, as shown on the newly prepared road map of the town as drawn by Gus Steman in accordance with committee recommendations.

These names bring our pioneers, who laid the foundations of our town, a little closer to us and to those who come after us. Is not the present the sum total of the past?

There's the Turner Road by Joseph Turner's house in the northeast corner of the town, long since gone, with only a cellar hole left, gaping at the sky above. But the road is still there and who knows but someday someone will build another house there and wonder to himself who blazed the road he travels on. The road will answer him: "Turner" -- Joseph Turner back in the Revolutionary Days!

Then there's the road near the southwest corner of the Town now uninhabited. Someday someone will buy that sightly hill farm and build a new house, and, as he is building, wonder to himself who was there first. The road will answer him, too: "Brigham". Alpheus Brigham, over whose blazed trail the town laid out the road in 1773, died in 1824, and on Nov. 13, 1834, his widow was "frozen to death in inhuman quarters provided by her son-in-law Foster who had been deeded the farm in consideration of the care to be bestowed upon them in their old age." (Things must have gotten "hot" for Foster as he left town a little more than a year later.)

There are stories connected with other roads, too, stories of pathos and tragedy, of happiness and hope.

The early pioneers blazed the trails along which these roads still run. They did it the hard way, with their only power equipment being muscle power and will power, supplemented by ox power -- and perhaps a jug or two of cider. But they "builded" well as evidenced by their usefulness today, with only such changes as time and circumstance have demanded. They built causeways through low and marshy stretches, and culverts here and there that are still in use today. They built for themselves and for ages to come.

Is it not a fitting memorial to them whose blazed trails are now the roads we travel on, that these very roads bear the names of these intrepid men?

It might be questioned by some, that several roads and streets today bear the name of present day families, but that is because they were the original builders or developers and which were already named when accepted by the town, and that is HISTORICAL too.

Respectfully submitted,

HIGHWAY AGENT'S REPORT

TO: The Citizens of Jaffrey.

I am submitting herewith my fifth annual report to you as Highway Agent for the Town of Jaffrey for the year ending December 31, 1966.

Below are listed some of the major improvements and construction work done in the Town during the past year:

1. The corners on the so-called Ark Road and Fitzwilliam Road were widened for better vision and for easier maintenance.

2. New sewer spur lines were constructed on Burrington Street and on Gilmore Pond Road.

3. Reconstruction work on Old Peterborough Road and on Cross Street was done in conjunction with the sewer projects on these roads.

4. Sidewalks were reconstructed from the corner of Main Street to the end of North School Street and on Ellison Street. Both sidewalks had been in dire need of reconstruction for quite some time.

5. The construction of a new sidewalk on Upper Main Street as approved by the 1966 Town Meeting was held up in order that the construction might conform with the standards as set forth by the State of N.H. and also because of the non-availability of hot-top machines.

6. The following roads were hot-topped during the past year:

Ellison Street	South School Street
Oak Street	KK Road
Stratton Road	Maple Avenue - Jaffrey Center

This hot-topping of the streets was a decided improvement and it is planned to continue this program in 1967 on other streets in need of same.

7. North Street (Route #137) was reconstructed under State supervision and specifications.

8. Extensive graveling was done on the Gap Mt. Road to the Wareham residence, as this is now a year-round residence and access must be provided on a year-round basis.

9. Both Hillcrest Court and Burring Street were accepted as town roads and were paved during the year.

10. The 1965 Town Road Aid Construction was partially finished and paved.

11. Some of the general maintenance work done by the Highway Department is listed below:

    General sewer maintenance
    New services for sewers made
    Tarring work
    Street cleaning
    New culverts installed
    Roads were ditched and scraped
    Brush was cut along highway

12. Winter maintenance. The department put in many long hours in keeping the roads of the community opened for traffic, and it is felt that the department operated with a maximum amount of efficiency during the past winter, as most of the town roads were passable for traffic within a very short period after a snowstorm.

Once again I wish to express my appreciation to everyone for cooperating with the department in fulfilling its obligations to the citizens of this community.

RICHARD H. WILSON,
Highway Agent

MUNICIPAL AIRPARK

During 1966 the following work was accomplished:
Runway edges sealed.
All cracks in runway paving sealed.
700 feet of safety taxiway paved.
Apron enlarged and sealed.
N.H. Ball Bearings, Inc., purchased and installed an automatic rotating beacon.

In 1967 it is planned to extend the safety taxiway to full length of the field, and do additional sealing on the runway.

Early this year the State Aeronautics Commission plans to install two approach aids improving the safety of the field:

1. A low frequency radio homing beacon enabling pilots to find the field more precisely during periods of low visibility.
2. A Visual Approach Path Indicator which through a system of colored lights, guides a pilot along a designated glide path on his final approach to landing.

A 400-500 foot extension to the runway is being considered. The main motivation for such an extension is to increase the safety margin for the light twin-engined aircraft which presently use the field. Financing would come from private funds with a possibility of some State participation.

There would be no change in the Town's present limited financial liability for the field's maintenance and improvement.

During 1966 406 visiting aircraft registered at the field. Many pilots do not register and the actual transient traffic is probably two to three times the registration figures.

Based aircraft (eleven) averaged a total of 12 takeoffs (and landings!) per day throughout the year.

Airpark Manager

MONADNOCK REGION ASSOCIATION

TO: Board of Selectmen
Town of Jaffrey

Last year we submitted a brief summary of the activities of your Monadnock Region Association over the previous year for inclusion in Town Reports.

Many Towns did have the material printed, and response has been most favorable. The idea was effective in substantially cutting down the number of inquiries as to exactly what the Association does for the area and individual communities.

We feel that since the voters of each Town are asked to appropriate money to the support of the Association they have a right to know how their money is used and just what the activities of the Association consist of.

Enclosed please find a brief, comprehensive report on our activities during the fiscal year 1965/66. We have included a financial report along the same line as last year.

We do feel that you will be doing your townspeople a service by printing this matter in your Town Report again this year.

As always, we welcome any suggestions or constructive criticism.

Yours for Prosperity
in the
Monadnock Region

Jason C. Sawyer, Exec. Sec'y.
MONADNOCK REGION ASSOCIATION

To the Town of Jaffrey

The stated aims of your Monadnock Region Association, now in its 34th year of existence, are as follows: To help the Monadnock Region remain beautiful, to promote worthwhile organizations, to increase the prosperity of its inhabitants, to encourage the development of parks and recreation facilities, and to be of service to all who live, work or visit here.

During the past year your Association has sponsored 4-H activities, Boy Scouts, Boys' State, forestry betterment, Philharmonic Concerts and ham radio groups. We have given slide lectures, talks on Parliamentary procedure, and duties of Town Officers. In cooperation with the National Society we sponsored the First Covered Bridge Festival to be held in New England. We have attended public hearings whenever the interests of the Region or any Town were at stake.

We continue to work for roadside beautification, conservation of resources, and protection of wild life. We publicize historic sites, points of interest and natural attractions. In various ways we have contributed to the development of the Region along cultural and educational lines to the end that such advantages are apparent and a factor in inducing desirable and valuable people to locate in the Monadnock Region.

Your Region Association will tackle any problem advancing

the livability of the area of the Monadnocks for natives, visitors or new residents.

SCHOOL PROGRAM

B. JAFFREY GRADE SCHOOL

The past year has been one of expanding the existing school program by using funds made available to Jaffrey under the Elementary and Secondary Education Act of 1965 which was passed by the 89th Congress.

This act was sub-divided into five sections which are referred to as Titles 1, 2, 3, 4, and 5. The first three pertain directly to the local schools, both public and private.

Under Title 1 a remedial reading program has been established with Mrs. Dorothy Kendall as teacher. To better meet the special needs of this work, since assuming this position, Mrs. Kendall has completed the following courses: "The Improvement of Reading" from Boston University, "Practicum in Reading" and "Diagnostic Teaching of Reading" at Keene State College. Her time is equally divided between the Grade School and St. Patrick's School.

This past year an elementary guidance counselor for grades 1-8 was employed for the first time, partly paid for with funds from Title 1. With money allocated from federal funds he spends equal time at St. Patrick's School and at the Grade School -- one day at Conant Junior High and one day at the Grade School.

Under Title 2 which allows money for the purchase of books and supplementary materials for the improvement of instruction, major emphasis was placed on enriching the classroom libraries. The two areas receiving special attention were books for personal reading and supplementary books in the subject matter field.

Under Title 3 the supervisory unions in the Monadnock area have pooled their allocated money to start a child guidance center at Keene known as the Monadnock Children's Special Services. This center is staffed by a full-time psychologist, one full-time and two part-time and speech therapists, four part-time remedial specialists, one full-time and two part-time social workers, one part-time pediatrician, one part-time psychiatrist, one consulting pediatric neurologist, a full-time director, a secretary and a receptionist.

The faculty has continued to show professional growth during the past year. Mildred Cutter, Priscilla Davis, Geraldine Wallace and Olive Lynch completed the extension course, "Art of Elementary Teachers" given by the University of New Hampshire. Doris Shea, the school nurse, has completed the course "Health Education" at Keene State College and Frank Clark, Guidance Counselor, "Group Counseling" at U.N.H.

Plans were formulated by the administration for a self-supporting summer school during the summer of 1966. Remedial reading and remedial math were offered to pupils in grades 2 through 6. Enrichment courses in literature and math were offered to grades 5 and 6. Insufficient interest made it inadvisable to go through with the plans.

With the addition of the guidance counselor and remedial reading teacher plus the physical education, art and music programs already in existence, the school is nearing the time when it will be truly comprehensive school.

C. CONANT HIGH SCHOOL

A record enrollment of 449 was reached at Conant High School as 90 students entered the 7th grade.

This growth, plus the need for curriculum expansion in certain areas, has created crowded situations in many classrooms. There is little space left for expansion in the present facility.

Some in-depth study needs to be preformed in order that the educational program in Jaffrey continue to progress in the future as it has in the past.

Eighth grade French was initiated this year, which extends our language program to five of the six grades at Conant. The plan is to offer French in six consecutive years. This will give the students of Rindge and Jaffrey an excellent opportunity to acquire a good command of the language.

A Science Seminar has also been added to the curriculum. It is an advanced science program at the senior level.

The remedial reading program and the study skills program are being continued with emphasis and success.

The welding room was completed this year when the purchase of the remaining stations was approved by the school district, and the booths constructed by the metal shop students. Only one area remains to be completed, namely, the printing room area, which has a good start in some basic equipment.

The National Honor Society held its first initiation this year. This was a huge success and will be continued in the future.

Several new teachers filled vacancies on the Conant staff. Mrs. Mildred Chase, Mathematics and Study Skills, Mr. Russell Wallace, Business, Mr. Richard Sanders, Music, Mr. Richard Sawyer, Biology, Mrs. Eunice Nelson in Homemaking, Mrs. Barrett in Latin.

Guidance at the Junior High level was reinforced when Mr. Frank Clark came to Jaffrey as the second guidance

person on the staff. He serves the 7 and 8 grades two days per week.

The athletic teams represented the school with success and pride during the past year. Continued enthusiasm on the part of students and coach will certainly result in a keen athletic program.

The town of Jaffrey can be justly proud of their excellent core of professional and non-professional staff members. The fine educational program provided is due largely to the stability of these dedicated individuals.

At this time it is proper to express my appreciation to the townspeople, the School Board, and the Superintendent, and staff members for their aid and cooperation, and to the student body for their pride and character.

Clayton E. Craig, Principal Jaffrey Grade School
Joseph D. LeBlanc, Principal Conant High School
Raymond G. Edwards, Superintendent of Schools
Donald P. Carle, Assistant Superintendent of Schools.

PART V. CHILD ACCOUNTING

A. SCHOOL GRADUATES

CONANT HIGH SCHOOL GRADUATES

The 1966 Class of Conant High School numbered 64 graduates, 34 boys and 30 girls. Twenty-one students, (33%) of the class went on to four-year colleges. Twelve students went on to other schools of less than four years, making a total of fifty-two percent of the class going on to further education. Seven graduates entered the Armed Services, the remainder of the class entered the labor force. Of the students going on to post-secondary education, twenty-three are attending schools and colleges within the State of New Hampshire.

John Belletete, Harlan Baird, Nancy Betourney, Marie Blair, Jeanne Burns, David Brodmerkle, Dennis Bosley, Elizabeth Champney, Paul Charlonne, Diane Davis, Donald Deschenes, Anna Dunning, David Duval, Janet Duval, Judith Farhm, Susan Fish, Janet Gagnon, Michael Garfield, Jeffrey Garland, Mary Gatto, Anne Gilmore, Frances Grummon, Dwight Haskell, Patricia Hazleton, Susan Hermanson, Craig Hoyt, Alex Isherwood, Robert Jalbert, Shawn Jalbert, David Jones, Ellen Kenney, Susan Kenney, Sandra LaFleur, Bonita Lambert, Susan Lambert, Denise Lortie, John Mackey, Margaret MacNeil, Keith Martin, Paul McPhie, William Murray, Timothy Noyes, Terry O'Connor, Jack Ojala, Stephen Olson, Lauren Ouellette, Bruce Pelletier, Peter Perkins, Kathy Porter, Diane Prescott, William Porter, Marlene Roy, Dennis Sands, Barry Sasner, Lee Sawyer, Anna Symonowicz, Ramon Tatar, Robert Tatar, Beverly Taylor, David Taylor, Madelyn Vanni, Joan White, Carl Witty, Mark Wozmak.

PART VI. AUXILIARY ACTIVITIES AND SPECIAL REPORTS

School Health Report

Jaffrey District

In this year's report, I will attempt to answer a question that is often asked. What does a school nurse do all day?

It is the feeling of some that our primary function is to give first aid. They're wrong. The school nurse may not even be in the building where an accident occurs, for she may serve several schools, as I do. Her primary duty is to educate children in both preventive and corrective health measures. To try to get parents to understand the importance of good habits in a child and of having a child's physical defects corrected. I can say here that Jaffrey's parents have been most co-operative and helpful in the elementary schools but not so at the High School level. Here it is most difficult to teach the pupils the importance of good food and especially proper rest; for frequently a student who was excused from school during the day because of illness is allowed to go out later the same day either to go to work or to social activities, when they should be at home resting so as to be well the next day.

A school nurse gives hearing and vision tests, plans and coordinates a TB testing program, counsels students, teachers and parents; organizes the Dental Clinic sponsored in Jaffrey by the Women's Club, sees that all appointments are kept with Dr. Harold Goodman, our dentist; this year 30 children were in the clinic. The nurse also arranges for eye examinations and the provisions of glasses when needed, with the help of Jaffrey's Community League. Whenever need arises for special services such as Crotched Mt. or Children's Clinics in Keene the school nurse is often the one to make arrangements and provide transportation.

At the start of a new year the school physician, Dr. Sterling, along with the nurse, examines the pupils in the odd numbered grades, all new students, members of the cheering squads and all the athletes. At that time and all through the year, when needed, the school nurse contacts Dr. Sterling regarding student's health problems.

The various health programs that take place in our schools, are also arranged by the nurse; for instance, a dental hygienist from Concord showed films and explained the proper care of teeth to all pupils in both our elementary schools. In November an educational film on Cancer, various signs and methods of self examination was shown to all High School Senior girls and the mothers of all Seniors were invited.

Time is spent in going to homes, checking why a student is absent for any length of time, while others who become ill at school, have to be driven home if no transportation is available. Then, there is the problem of poorly dressed children, and the need to try and help to bring about the necessary changes.

In the school, much time is used up keeping the students' individual Health Records in order, entering recent illnesses, immunizations and annual charting of height and weight. In the Spring it is the duty of the nurse to help with the round-up and enrollment of entering first graders, including their first health check-up.

Finally, each school nurse has problems unique in her schools. She can't solve them all, but she can at least attack them, and pretty soon you have better facilities, healthier children, parents who are more understanding, and you know you've got a real health program on its way.

B. REPORT OF CONTOOCOOK VALLEY STUDY GROUP OBSERVERS

At the 1966 annual School District Meeting a resolution was passed suggesting that the School Board appoint a part of its membership to act as observers of the progress of the Contoocook Valley Cooperative Planning Board and to report back to the people of the Jaffrey School District at a special or annual School District Meeting if they deemed it desirable. The following is an outline of our activities during the past year.

During the spring, we attended, as observers, regular meetings of the Contoocook Valley study group. Due consideration was given to the progress and direction of this study. We would like to make particular mention of the fact that we were very much impressed with the calibre of the work of this group. However, while evaluating the advisability of Jaffrey becoming an official part of the Con-Val Study, it became evident to us that Con-Val was but one alternative open to Jaffrey and that due consideration should be given other alternatives before recommendations could be placed before the voters.

Among the other alternatives was the possibility of pursuing a study of the feasibility and desirability of a Rindge-Jaffrey Cooperative School District. During the summer months, several joint School Board Meetings were held with Rindge. The aims of the joint meetings were two-fold; to collect and evaluate data concerning a Rindge - Jaffrey Coop, and to reconsider, jointly, the advisability of studying with the Con-Val study group on a formal basis.

On the basis of the data collected, the School Board voted unanimously that a study of the possibility of a Rindge - Jaffrey Cooperative District should be an important part of any formal study voted by the Jaffrey School District. Application was therefore made to the State Department of Education to determine whether or not approval could be forthcoming for a two - town cooperative district. Late this past fall, such approval was given by the State Department of Education.

The road is now cleared for a formal, in-depth study of all alternatives open to the Jaffrey School District. The entire school board feels that a formal study group should be approved at the regular March School District Meeting. Planning for the future needs of our school district should be conducted in a careful and constructive manner. We, therefore, urge your support for Article 12 in the School District Warrant.
